ARCH - VISTARA : A Comprehensive Building Exhibition & Beyond

Who We Are :

We are Architects, registered under the "Council of Architecture (COA)", a statutory body established under the Architects Act, 1972. Without this registration, we cannot practice or call ourselves Architects. The COA ensures the protection of public interests, particularly those of clients, by regulating the profession.

The "Indian Institute of Architects (IIA)" is the only national-level voluntary organization for Architects in India. Established in 1917 as an association of Architecture students from Sir J.J. School of Arts, it evolved into the "Bombay Architectural Association" and was later registered as "The Indian Institute of Architects" on 2nd September 1929. Affiliated with the "Royal Institute of British Architects (RIBA)" in 1925, the IIA has grown from 158 members to over 27,000 members today.

The Kalaburagi Centre of IIA, established in 2015, represents over 300 practicing Architects from Kalyan Karnataka Region.

Our mission is to :

- * Encourage the study of Architecture.
- * Elevate the standards of the Architectural profession.
- * Promote the interests of Architects across India.

Why ARCH - VISTARA in Kalaburagi ?

Kalaburagi, the divisional headquarters of the Kalaburagi Division, is one of the fastest-growing cities in Karnataka. Rapid urbanization demands sustainable, eco-friendly, and livable spaces. As Architects, it is our duty to guide citizens and clients in planning, designing, and constructing such spaces.

"ARCH-VISTARA" is a first-of-its-kind Comprehensive Building Exhibition in Kalaburagi, covering every aspect of construction from purchasing a plot to performing housewarming rituals. This Exhibition aims to promote sustainable development and eco-friendly materials while showcasing the latest innovations in the construction industry.

Highlights of ARCH-VISTARA :

Building Exhibition

This three day exhibition will showcase all latest products in Architecture & Construction Industry. It will connect Manufacturers, Suppliers, Vendors and Industry Professionals to explore solution in the construction.

Bamboo Structures

Showcasing the versatility of bamboo in construction.

Heritage Walk :

- A walk to raise awareness about Kalaburagi's rich heritage, showcasing its historical and cultural significance.

Seminars :

- Why Choose Architecture ? Exploring the scope and possibilities of the profession.
- Role of Artificial Intelligence in Architecture : Helping practicing Architects stay ahead in the field.

Vision 2035 :

Dreaming is a natural tendency of humans and a blessing from nature. We all dream about our villages, the future of our children, and our country. However, these dreams often drift like scattered clouds, shedding a little rain before disappearing. But when all the clouds come together, they bring lightning, thunder, and abundant rain, leading to a transformation in nature.

This initiative of ours is a small effort to bring everyone together and turn our dreams into reality. By adding your dreams to this effort & working together in unity, we can achieve success. With this hope, we are organizing the "Vision 2035 - Kalaburagi" program.

We welcome your vision of how Kalaburagi should be in the next ten years. Please prepare clear notes about what is needed in your field and come forward to present your thoughts and vision. We seek your cooperation in this endeavor.

With your collaboration, we believe we can turn our dreams into reality. We cordially invite you to this program.

A unique initiative to pool ideas and visions for the sustainable development of Kalaburagi over the next decade. This conclave will present these visions to elected representatives, aiming to turn dreams into reality.

Cultural Evenings :

- Showcasing the rich culture of Karnataka through performances and events.

Our Goal :

ARCH-VISTARA is not just an Exhibition; it is a movement to promote sustainable development, eco-friendly practices, and innovative construction techniques. It is an opportunity for citizens, builders, and Architects to come together and shape the future of Kalaburagi.

Join Us :

We sincerely invite all citizens of the Kalyan Karnataka, especially Kalaburagi, to participate in this grand event. Your presence will make ARCH - VISTARA a success.

ORGANIZED BY : INDIAN INSTITUTE OF ARCHITECTS (IIA), KALABURAGI CENTRE
